- (a) Entries appearing below an application number reflect the latest update(s) of the application's IFW or transaction history since the previous PAIR alert was issued.
- (b) Entries in Public PAIR may take two or more days to be current with any changes in the docket.
- (c) The title of the invention and the name(s) of the inventor(s) in this alert and in our database are extracted from PAIR. These fields appear blank for those applications for which these entries are not yet available in PAIR.
- (d) For the sake of convenience, terms such as PAIR, IFW, etc. specific to the USPTO are used in this alert service. The use of these terms is not intended to convey a limitation of the alert service to exclusively track US applications. Currently, PCT applications can be tracked (upon the client's request) during their national phases in the US, EP and Canada as well.
- (e) \* denotes Transaction History

Best regards,
